enthusiast // Founder of F1 FoRgE
Bengaluru, Karnataka, India

Summary

I am a passionate AI and Cloud enthusiast focused on building practical solutions, contributing to open-source projects, and continuously learning emerging technologies. Currently, I am exploring AI Engineering, Cloud Computing, DevOps, Application Development, and Data Structures & Algorithms while actively working on real-world projects and community initiatives. I believe in learning by building and applying technology to solve meaningful problems. I have been selected as a Contributor for GirlScript Summer of Code (GSSoC) and am also working as an AI Developer Intern with Gigni Community. Alongside my technical journey, I lead a learning community where members collaborate on cloud computing, software development, content creation, and project-based learning. My current interests include Artificial Intelligence, AWS Cloud, DevOps, Python Development, Flutter Application Development, Open Source, and Product Building. I am always excited to connect with developers, builders, mentors, and innovators who are passionate about technology, collaboration, and continuous growth.

Experience

Gigni
AI Developer
May 2026 - Present (2 months)
Mumbai Metropolitan Region

Excited to begin my journey as an AI & Python Developer Intern under the Zorus 2.1 Internship Cohort by GIGNI

Looking forward to gaining real-world experience, building impactful projects, and growing my skills in AI & development through this opportunity.

Grateful for the opportunity and excited for the journey ahead #

GirlScript Summer of Code
Contributor

TechNexus Community
Community Volunteer
May 2026 - Present (2 months)
Bengaluru

It's all about me volunteering the community and bringing the welfare ment of the community and which breaches the way for networking

Tech2007
Content Creator
January 2026 - Present (6 months)
Bangalore Urban

- Create educational technology content focused on Software Engineering, Artificial Intelligence, Cloud Computing, Linux, Automation, and Developer Workflows.
- Develop hands-on tutorials, project walkthroughs, and technical learning resources for students and aspiring developers.
- Share practical insights on C Programming, Systems Programming, Testing, Open Source, and emerging technologies.
- Research, script, record, edit, and publish technical content while building a growing learning community.
- Promote industry-ready engineering practices, including automation, testing, problem-solving, and project-based learning.
- Continuously explore new technologies and simplify complex concepts into accessible, beginner-friendly content.

F1 FoRgE
Founder
October 2025 - Present (9 months)
Bengaluru

F1 Forge is a student-driven technology community focused on helping learners become builders through collaboration, practical learning, and real-world projects.

We explore AI, Cloud Computing, Software Development, Open Source, and emerging technologies while empowering students to learn, build, and grow together.

Forging Builders. Creating Futures.

HiDevs

Generative AI developer intern

January 2026 - May 2026 (5 months)

Bangalore Urban

Scaler School of Technology

Gen Ai Intern

June 2025 - September 2025 (4 months)

Bangalore Urban

I was currently a part of the Young Innovator Internship Program at Scaler School of Technology, where I've been exploring how to harness the power of AI in practical, creative ways.

During this journey, I've gained hands-on experience in Prompt Engineering, which has enabled me to:

Build AI-generated websites using tools like ChatGPT and other web AI platforms

Create mobile apps with AI assistance, speeding up development and design

Produce AI-generated videos for storytelling, branding, and presentations

This program has helped me understand the real-world impact of AI and how it can be a powerful tool for innovation in tech, design, and communication. I'm excited to continue exploring, building, and collaborating in the field of AI and beyond.

Let's connect and innovate together!

Education

REVA University

Bachelor of Technology, Computer Science (Artificial Intelligence/Machine Learning) · (September 2025 - August 2029)

New Horizon Pre-University College

PCMC · (June 2023 - March 2025)
